Keep an eye on a larger area with 355° pan &110° tilt capability

## Smart Wi-Fi Video Camera

QQ App   Danale

Specifications

Name		Smart Wi-Fi Camera
Type		AT-S201
Camera	Resolution	1280*720
	Min Illuminance	0.0001lux（IR ON）
	Lens	3.6mm
	Pan&Tilt	Horizontal 355°/ Vertical 110°
	Day-Night	IR-Cut
Video &Audio	Video Coding	H.264
	Video Play	Support Multi-Viewer
	Audio Coding	G.711A
	Audio Output	Built-in Speaker
	Audio Input	Built-in Microphone
Fuction	Recording	Auto/Circular Recording
	Image Capture	Support
	Memory	Micro SD/PC
	App Protocol	QQ SmartLink/Danale
	Intercom	Support
	Video Flip	Support
	Motion Detection	Support
	Voice Message	Support
Interface	WiFi	Support,802.11 b/g/n
	Power	DC3.5*1.35
	Reset	Reset Key
	Micro SD	Support
Other	Power Supply	DC 5V/2A
	Power Consumption	1.5W(IR ON-3W)
	Operating Temperature	-10℃～55℃
	Operating Humidity	10%～90%
	Size	135mm×115mm×160mm
	Weight	≈300g（camera only）

R&D Center in Shenzhen

Our photo from Shenzhen Security Expo 2015

- Certified as a national Hi-tech enterprise in 2014
- Technologies and products are widely used in security, medical, transportation, video conference, drone and many more applications.

Manufacturing Facility

PCBA Manufacturing

10,000 Class Cleanroon

State of the Art Equipment from Japan

Robust Inspection & Testing Protocols

- A premise of 9400m²
- ISO9001:2008 Certified
- State-of-the-Art Equipment

Easy Setup, Even Easier Use

Plug in to Power Outlet   Download Application   Add camera as a new device

Security & Reliability

Megapixel HD Video with outstanding clarity & color performance

The optimal combination of image sensor and processor together with the optimization of image processing algorithms & H.264/AVC video coding enables the camera to deliver a smoother video streaming at lower bitrates, ensuring a superior image quality with outstanding clarity & color performance.

3 Megapixel Optical Lens
F/2.0 Aperture

HD Sensor
1280x720P

HD Image Signal Processor   Algorithm Optimization

Infrared Night Vision for low light conditions

10 built-in high power SMD850 IR LEDs allow the camera to produce a higher concentration of light & higher intensity infrared radiation which in term increases the lumens so that for the camera to deliver a sharp & clear image in low light or nighttime conditions, even in complete darkness

Image Quality Comparison:AT vs. Similar competiter

AT(1280*720P)   Similar Competitor(1280*720P)

AT(1280*720P)   Similar Competitor((1280*720P)

Motion-driven alerts sent to your mobile device

The camera is also able to capture clips and send you alerts whenever any motions are detected so you will always know what`s happening at home.

Intrusion Detection   Pet`s activity notifications

Alerts to mobile device

Ultra-Smooth Pan & Tilt

Ultra-smooth 355° pan and 110° tilt capability allows you to keep an eye on a larger area by viewing live stream or taking snapshots

View and control using the free apps

110°

355°

Remote Viewing on various types of devices.

See, hear & communicate using your computer, smartphone or tablet with free apps (QQ or Danale) enhancing a better peace of mind.

Sharing live video & audio with multi-users

The free apps allow you to share live stream with your family & friends.Showing your loved ones that you care. Be there even when you are not.

Add authorized members

Voice messaging
The camera not only enables two-way audio communication, but also enables you to send voice messages

Grandma prepared your favorite dishes...

To leave a message press the button

Two-Way Talk

With the utilization of high efficiency audio format AAC, a state-of-the-art noise cancelling algorithm, the built-in speaker & mic enable everything you say or hear to come through clearly and instantly.

Happy birthday honey...

Thank you mommy...

It`s almost as handy as a videophone.

Seamless Loop Recording Play back whenever you`d like

So that you don`t miss anything

Can record locally to a MicroSD card so that you will have full control over your recordings and can manage them however you would like.Capable of uninterrupted audio & video recording even in the event of network connection failure.

Supports up to 64GB MicroSD card (not included) allowing you upto 20 days circular recording.

64GB

It can work as a video recorder

Even in case of network failure or no network connections available, as long as the power stays on, the camera can work as a video recorder so that you can keep your cherish memories.

Simple Installation   Whichever way you like

Desktop \ Wall Mount \ Roof-Top Mount
